

RAPID THX™

CROSS-LINKING AGENT FOR POLYMER DRILLING FLUID

DESCRIPTION:

Rapid THX™ is a chemical agent designed to cross-link Rapid THV™ polymer.

TYPICAL PHYSICAL PROPERTIES:

Appearance	Clear Solution
Viscosity (as delivered)	4 cps
Specific Gravity	1.2 gr / cc @ 25°C (77°F)
pH	10.0. - 11.5 (typical)
Recommended Use Level	2 gal / 40 lbs. Rapid THV

APPLICATION:

When a lost circulation pill is needed quickly, an easy method to achieve this is to cross-link the Rapid THV™ polymer. The cross-linking agent will quickly form a tough rubbery pill. Various lost circulation materials may be incorporated into the pill depending on the severity of the fluid loss. This pill can be easily drilled out when desired.

PACKAGING, STORAGE AND HANDLING:

Rapid THX™ is delivered in 5 gallon drums. It should be protected from freezing in transit and storage.

Rapid THX™ is harmful if swallowed. May cause severe eye and skin burns. Inhalation of vapor could cause headaches, nausea, dizziness, and respiratory irritation. All persons who come in contact with this product or are required to handle should read and be familiar with all precautions detailed in the material safety data sheet (MSDS) on this product.
